

Criteria for scoring SPCR internal projects

Criterion	Score (0 – 4, with 0 = not at all met / poor, 4 = fully met / excellent)	Comments
Relevance to primary care / SPCR		
Potential impact of the research area on the NHS		
Clarity of aims		
Match between methods and aims, and likelihood of yielding results that address research question		
Feasibility (i.e. likelihood of project completing on time and providing results).		
Capacity building element		
Likelihood of project leading to future funding; clear plans for how this project will lead to further research.		
Appropriate PPIE (Patient and Public Involvement and Engagement) or if not, good explanation of why not		
Reasonable costs (up to £X)?		
Overall score 4 = definitely fund 3 = fundable with some minor modifications 2 = may be fundable, with modifications 1 = not fundable 0 = not fundable
