## Annual Trainees' Event 2017

18 - 19 September 2017  
Sultan Nazrin Shah Centre, Worcester College  
University of Oxford

---

## Welcome

A warm welcome to the 2017 School for Primary Care Research trainees' event at Worcester College, Oxford. This year sees a record number of trainees attend the event since the capacity programme was established in 2010, almost 70 are present, and more than 50 delegates are presenting their research. We would like to extend a special welcome to our new trainees as well as the first intake of Wellcome Trust trainees.

The packed programme on Monday will end with dinner in the beautiful wood panelled Worcester College dining hall situated at the entrance of the college. Tuesday morning's programme at the Blavatnik School of Government ends at 10am in time for registration at the School's 2017 showcase.

## Programme

### DAY 1 MONDAY 18 SEPTEMBER

- 09.00 - 10.00: Registration
- 10.00 - 10.15: Welcome, Richard Hobbs
- 10.15 - 11.15: Parallel sessions  
Engagement in teaching for researchers, Sophie Park (Auditorium)  
Who's listening? Communicating research in a noisy world, Dan Richards-Doran (Hinton)
- 11.15 - 11.30: Refreshments
- 11.30 - 12.30: Session 1, elevator pitches
- 12.30 - 13.15: Lunch

Christian Mallen and Jo Protheroe

**University of Manchester**

Peter Bower

Aneez Esmail

**Newcastle University**

Louise Robinson

Barbara Hanratty

**University of Nottingham**

Joe Kai

Nadeem Qureshi

**University of Oxford**

Carl Heneghan

Paul Aveyard, Katherine Tucker and Kay Wang

**University of Southampton**

Paul Little

Hazel Everitt

**University College London**

Elizabeth Murray

Kate Walters

### SPCR research capacity programme

The Schools research capacity programme aims to train future leaders in primary care research. Our unique collaboration between academic centres in England provides a setting where trainees can benefit from the leadership of researchers across all member departments. We aim to build research capacity in primary care by providing multidisciplinary training and development opportunities, nurturing trainees from a range of professional backgrounds.

The School's mentoring scheme was developed in 2013 with the Society for Academic Primary Care (SAPC) scheme and the Primary Healthcare Scientists (PHoCUS) group. We provide support to early/mid-stage primary healthcare scientists from any background discipline other than medicine.
