Three NIHR Research Schools'
Mental Health Programme

[Start exploring >](#)

Explore the publications

This collection showcases journal articles authored by award holders from the NIHR Three Research Schools' Mental Health Programme. The featured work embodies the programme's core mission: to advance impactful, evidence-based mental health research. These articles, born from recognised excellence in research training and funding, collectively strengthen the UK's capacity to address complex mental health challenges, directly informing future practice and policy.

Click on the year you want to explore. You can come back to this menu through the home button icon.

To look up the name of an author or article, select **Ctrl/Cmd+F** and input the name.
