

# WHAT DOES IMPACT MEAN?

## IMPACT MEANS ACHIEVING THESE SPCR GOALS:

1. Increase and develop the evidence base for practice in the primary care
2. Contribute to ongoing efforts to build research capacity in primary care
3. Improve research awareness in primary care
4. Create a 'critical mass' of research expertise and funding through coordinated and collaborative working across the country

The IMPACT AT 10 PROJECT aims to demonstrate these goals are being met

# HOW CAN WE MEASURE RESEARCH IMPACT?

## BRIEF METRICS

- Number of journal articles
- Number of article citations
- Article altmetric
- Number of policy citations

## PORTFOLIO ANALYSIS

Qualitative assessment of the SPCR research portfolio over the last 10 years.

## THEMATIC CASE STUDIES

Qualitative review of research by SPCR research themes over the last 10 years.

## Impact Snapshot

**438** publications from SPCR researchers  
SPCR publications cited **8,732** times

SPCR publications cited in **43** health policy documents globally

## FUTURE DIRECTIONS

The next stage of this project will focus on the career progression of trainees and the economic impact of SPCR research.

Funded & supported by  
**NHS**  
National Institute for  
Health Research
