

10.00 - 11.00	Registration, refreshments and poster hanging		FR16 working group meetings	
11.00 - 11.10	<b>Welcome</b> <i>Richard Hobbs</i>			
<b>Plenary SESSION</b>				
11.10 - 11.30	<b>Plenary 1:</b> ATAFUTI: Alternative Treatments of Adult Female Urinary Tract Infection. <i>Michael Moore</i>			
11.30 - 11.50	<b>Plenary 2:</b> Derivation and validation of prediction models to estimate future risk of primary hip replacement in primary care in the United Kingdom. <i>Dahai Yu</i>			
<b>11.50 - 13.00 Parallel SESSION</b>				
	<b>Older people</b> <b>Chair: Rachael Frost</b>	<b>Musculoskeletal</b> <b>Chair: Hazel Everitt</b>	<b>Widening involvement in research</b> <b>Chair: Elizabeth Murray</b>	<b>Patient safety</b> <b>Chair: Jonathan Mant</b>
	<p>Access to social care and its influence on healthcare utilisation for older adults: a systematic review of international evidence. <i>Gemma Spiers</i></p> <p>Frailty scores to predict mortality in older people using data from population based electronic health records: case control study. <i>Daniel Stow</i></p>	<p>How do physiotherapists approach analgesic use in patients with hip osteoarthritis? Findings from a mixed methods study. <i>Melanie Holden</i></p> <p>Using primary care records to describe patterns in the annual prevalence, incidence and management of carpal tunnel syndrome over a 20 year period. <i>Claire Burton</i></p>	<p>Trials need participants but not their feedback? A scoping review of measures of participant experience of taking part in trials. <i>Claire Planner/Peter Bower</i></p> <p>Can we value patient and public involvement (PPI) in primary care research using health economic methods? <i>Steven Blackburn</i></p>	<p>Barriers and enablers for the adoption of patient safety tools to improve patient safety in UK primary care. <i>Katherine Perryman</i></p> <p>Determining the extent of delay in consulting for, and the diagnosis of, giant cell arteritis in primary care. <i>James Prior</i></p>
	<p>Empowering older people with multimorbidity to improve safety in primary care: Development and feasibility study of an intervention to support effective communication. <i>Rebecca Hays</i></p>	<p>Risk of fragility fracture among patients with psoriasis: A population based matched cohort study from the United Kingdom. <i>Rebecca Whittle</i></p>	<p>The Child and Adolescent Musculoskeletal Pain (CAM-Pain) Study: A Feasibility Study testing a way of identifying, recruiting, and collecting data from children and adolescents in Primary Care. <i>Zoe Michaleff</i></p>	<p>Anticholinergic drugs and the risk of dementia: a nested case control study. <i>Carol Coupland</i></p>
	<p>Supporting family carers to care for their relatives at end of life - A role for the internet? <i>Nathan Davies</i></p>	<p>Testing mediators of the effects of the COgnitive Patient Education (COPE) intervention for low back pain. <i>Gemma Mansell</i></p>	<p>Strategies to recruit ethnic minorities to clinical trials in the UK: Systematic Review. <i>Yumna Masood</i></p>	<p>The changing incidence of poisonings amongst young people in England, 1998-2014. <i>Edward Tyrell</i></p>
13.00 - 13.45	<b>Lunch</b>			
13.45 - 14.30	<b>Manned poster session</b>			

14.30 - 15.40				
Parallel SESSION				
	<b>Cardiovascular</b> <b>Chair:</b>	<b>Common conditions</b> <b>Chair:</b>	<b>Service development/Education</b> <b>Chair: Gene Feder</b>	<b>Big data &amp; electronic health records</b> <b>Chair:</b>
	Establishing research priorities to improve the management of patients with advanced heart failure using the James Lind Alliance method. <i>Clare Taylor</i>	Increased risk of mortality following recorded presentation of symptoms of breathlessness and wheeze in primary care: a matched cohort study using electronic health records. <i>Ying Chen</i>	What are the experiences and support needs of migrant women exposed to domestic violence in healthcare? A qualitative study and synthesis. <i>Nadia Khelaifat</i>	rEHR: An R package for manipulating and analysing Electronic Health Record data. <i>Evan Kontopantelis</i>
	Primary care interventions to improve uptake and adherence to exercise/activity programmes in people with peripheral arterial disease related intermittent claudication (PAD-IC): a systematic review. <i>Ricky Mullis</i>	Andrographis Paniculata for symptomatic relief of respiratory tract infections in adults and children: a systematic review and meta-analysis. <i>Xiao-Yang Hu</i>	Service Users and Supporters Working Better Together: Facilitating mutual support for mental wellbeing between people living with chronic physical conditions and their supporters. <i>Gemma-Claire Ali</i>	Identifying risk of diabetes using an artificial neural network in primary care: comparative cohort study. <i>Tim Holt</i>
	Understanding Telehealth in Heart Failure. <i>Christine A'Court</i>	The impact of linking weight with health on patient outcomes in a brief intervention for weight loss. <i>Charlotte Albury</i>	Individual factors associated with self-reported measures of cold homes during winter. <i>Claudio Sartini</i>	External validation of risk prediction models for incidence of colorectal cancer using UK Biobank. <i>Juliet Usher-Smith</i>
		Acute Flares of Knee Osteoarthritis in Primary Care: A Feasibility and Pilot Study Process Evaluation. <i>Martin Thomas</i>	Facilitators and barriers to teaching undergraduate medical students in primary care: The GPs' perspective. <i>John Barber</i>	Can electronic medical records be used to identify a prodromal syndrome for rheumatoid arthritis? <i>Sara Muller</i>
<b>15.40-16.00</b>	<b>Refreshments</b>			
<b>Plenary SESSION</b>				
16.00 – 16.20	<b>Plenary 3:</b> Risk of fragility fracture among patients with gout and the impact of urate-lowering therapy. <i>Alyshah Abdul Sultan</i>			
16.20 – 16.40	<b>Plenary 4:</b> An automated software system to promote anticoagulation. <i>Tim Holt</i>			
16.40-17.00	<b>Closing comments and prize-giving</b>
