The annual training camp gives participants the opportunity to experience group work and present skills with other from diverse areas of research. The format of the camp has included multiple streams including: Preparing Research Funding and The Art of Communicating your Research.

The TUDENT-PHC is a one-year, national interdisciplinary training program organized and delivered by the Canadian Institutes of Health Research (CIHR) and the Canadian Health Services Research Foundation (CSCR). The TUTOR-PHC is a competition for SPCR trainees. Where host institutions have a remit for research capacity development (BRC, ARC, PSTRC, SPCR, SPHR, or SSCR) two places are available for SPCR trainees.

Eligibility
- Applicants must be current members of the NIHR. This includes Early Career Researchers, Postdoc Researchers, and Researchers-in-Training.
- Applicants must complete the SAPC ASM and SXM and have submitted at least one abstract to the SAPC ASM.
