

## **PPI**

*Emma Palmer-Cooper*

We are also setting up PPI workshops, with a variety of themes, to support the use of Patient and Public Involvement in identifying and prioritising research questions for FR16. If you would like to take advantage of this opportunity, please get in touch with Emma Palmer-Cooper [emma.palmer-cooper@phc.ox.ac.uk](mailto:emma.palmer-cooper@phc.ox.ac.uk) with information on your research and clinical theme (along with the names and numbers of other interested parties where appropriate) before 31.3.17. Workshops will be arranged for themes with sufficient expressions of interest.
